RE: 2003 MFT Street Resurfacing Project
MFT # 03-00000-01-GM

Dear Residents/Businesses:

The Village of Westmont has acquired a contractor, Bartlett Bituminous Asphalt, L.L.C. of Itasca, to perform the Village's annual street resurfacing program. The construction work is scheduled to begin Monday, April 14th, depending upon weather conditions and contractor scheduling. This project is being performed as a service to the community and no charges will be assessed to any individual property owner.

This project is expected to only last a few days in each area, where access will be allowed at most times. The contractor has been instructed to give residents advance notice when access may be temporarily prohibited, so that vehicles may be moved. In order to expedite construction, parking along the street will be restricted temporarily during construction operations. Local traffic will be allowed access, but thru traffic is prohibited as this delays construction work.

With so many streets involved, it is difficult to say when a particular street will be worked on, and starting location is solely up to the contractor. Please be patient; there are a total of nine (9) streets (approximately 70,000 Square Yards) that are listed for this project. All work should be completed by the end of May, and we are sure you will be pleased with the results.

The Village of Westmont Engineering Department shall strive to make this project proceed as efficiently as possible. With your cooperation and understanding, working together will make this project a success! We apologize for any inconvenience this may cause you. If you have any questions or require additional information, please contact me at (630) 829-4465.

Sincerely,
Noriel Noriega
Assistant Village Engineer
